Summary Report of Plan Operations/Expenses

How much does it cost to manage the Police & Fire Retirement System? For the period 01/01/12 — 12/31/12, the Retirement System expended \$20,530,455. The largest portion of this amount, \$19,155,745, was used to pay pension benefits to the 623 retirees/beneficiaries of the Plan. Members who left City employment withdrew \$52,043 in accrued member contributions. The remaining expenses, \$1,322,667, were administrative. Of the administrative expenses, fees to the money managers for the investment of assets were \$822,709. The balance, \$499,958, was used to pay fees for services provided by custodians, auditors, actuarial consultants, performance/investment consultants, legal advice, securities lending program, independent medical evaluations and for staff salary/benefits, office facilities, support operations, training and due diligence reviews. Administrative and investing costs represented less than one half of one percent of the market value of the portfolio. All fees and expenses are paid in cash, as the Plan does not employ soft dollar arrangements.

Funded Status

- Actuarial Accrued Liabilities \$375,797,800
- Applied Assets \$321,323,888
- % Funded 86.00%

The Retirement System continues to be in solid financial condition in accordance with its objective of level percent-of-payroll funding.

While it is not possible to provide a full range of Plan activity in a newsletter, a summary annual report is available for review. Audits, annual accountings, and actuarial valuations may be reviewed at the Retirement Systems Office.
